Possi

Common room for siblings is even more fun, companionship and entertainment. Each child , however, should have their own space in such interior. It is the best way to combine the two worlds.

Possi

Create three key areas in the kids' room: for learning, playing and restful sleep. Comfortable desk and bed are necessary. A soft carpet is enough for playground.

Possi

Despite appearances, this is not an ordinary room. This is a zone where parents have limited access. Let your children express their style, choose their favourite colours, accessories and textiles. In the end, this is where they will discover the world.

Design a shared ideal furniture for the baby's room, using our configurator. This is not only great fun, but also a decision-making lesson.

Indiana

Although children grow up in the blink of an eye, yet they do not have to grow out of the furniture so quickly. Select universal Indiana furniture with original metal handles and lash out on extras.

Pastel land

The colours from a palette of fashionable pastels combine perfectly with white. This combination is the perfect way for the creation of the interior for a little girl.

Indiana

Children grow very fast. The Indiana collection design is so functional and aesthetic, that you will not have to replace it with „more" youth furniture in a few years.

Soft fabrics are the heroes of the background. Carpets, curtains, textiles and soft pillows bring softness, comfort, emotions and unique, inimitable style.

Ringo

Furniture does not have to be coloured to create a fairytale room for a child. Ringo is a best evidence. Modern white elements are brightened with colourful accessories and striped wallpaper, which is the most conspicuous.

Ringo

The interior becomes beautiful when it has its own character. Ringo collection is a great chance to use your imagination. This beautiful white furniture can be combined with the entire palette of colours, forms and shapes up to the point where you will love your idea for a perfect interior.

Clever ideas ...

... enable you to find and exploit hidden and previously unused corners. What matters is the creative thinking! A bunk bed will be ideal for two siblings. Comfortable, safe, with a stable ladder - the bed will help create a functional place for sleeping, even if there is not too much space.
