

## living room and dining room

# tables, chairs, and coffee tables

Your style, your interior. When furnishing a dining room, you do not have to decide on one particular style. Your interior is intended to express you, your passion and personality. Choose objects that you like to be surrounded by. Decorate the classics with modern extras, and place a classic table in a minimalist interior. Think creatively.

a system of tables and coffee tables

# Vario

## Design your own table and coffee table!

Thanks to the well thought-out solutions we have prepared for you, you will easily be able to design a perfect table or coffee table. The VARIO system allows for an individual selection of size, colour and style of the table tops and legs. Check out the possibilities, and enjoy the choice!

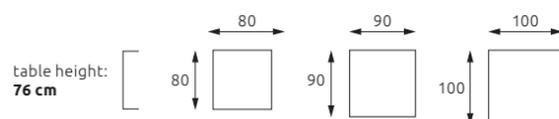

- The table provided with two or more inner inserts has an additional adjustable metal leg.
- The inserts are stored outside the tables.

### 1 Decide on the size of the Vario table or coffee table.

#### • Fold-out tables:

#### • Non-fold-out tables:

#### • Coffee tables:

### 2 Choose from a wide range of colours and two types of wood

oak wood								
beech wood								

### It's that easy!

There is no need for compromise. Pick and choose until you create a model perfectly suited to your needs. We have prepared a lot of options. Feel free to act!

### 3 Choose among three types of table tops.

TABLE TOP - natural veneer: oak, beech, wooden edge reinforcement

This is how your version of the Vario coffee table can look.

### 4 Apply the right legs.

LEGS - made of wood: oak, beech

\*PLEASE NOTE: When ordering a chair and a coffee table, the VN04 leg does not have decorative cutters which are only present on the leg of the table.

### Exemplary lengths of Vario
